

# Helen Davidoski

Mid-Level Landscape Designer

1-513-235-4853

h.r.davidoski@gmail.com

Denver, CO

## EXPERIENCE

### Clark & Enersen

Landscape Designer/ Project Management

2023 - Present Hybrid - Ft. Collins/Denver, CO

- Collaborates with clients, architects, engineers, and contractors to coordinate project requirements, resolve design challenges, and deliver an innovative and quality product.
- Manages project schedules, contractor partnerships, and resources effectively to ensure timely delivery and client satisfaction.
- Helps establish and grow Landscape Architecture team in the Ft. Collins office. Develops relationships with local municipalities resulting in new work.

### Superbloom | Landscape Architecture

Landscape Designer / Project Management

2021 - 2023 Denver, CO

- Lead small-scale commercial projects focused on developing exciting native, drought-tolerant, and pollinator-friendly planting designs around Denver Colorado.
- Developed research-based content and graphics for Superbloom's social media platforms, lectures, and RFPs.
- Designed nature-based solutions to climate issues affecting the Western United States blending technology-forward and systems-thinking approaches

### Homebound

Social Media Marketing Manager

2020 - 2021 Remote

- Key team-member during growth phase for Series C funding
- Managed social media platforms, content, schedule, messaging, and branding
- Wrote blogs, press releases, proposals, guides, etc.

### Miller Company Landscape Architects

Intern

Summer 2019 San Francisco

- Comprehensive site analysis for San Francisco's oldest park, Buena Vista. Weekly site visits, mapping, documenting opportunities for updates, etc.

## STATEMENT OF PURPOSE

I am passionate about designing outdoor urban spaces that:

**CONNECT** - people to each other, themselves, and the environment

**CALM** - heart-rates, pace, traffic, etc.

**CONSERVE** - natural land, habitat, and resources

## STRENGTHS

### Effective Communication

Honest, open, and direct communication skills that get to the heart of the problem and the solution quickly.

### Curiosity

Always looking for innovative solutions to the world's ever changing problems. Currently learning everything there is to know about T.I.D. - Trauma Informed Design.

### Passion

I believe in the power of design and it's ability to create safe, happy, healthy environments. I am eager to learn and grow from senior staff everyday.

### Creative Problem Solving

Proven ability to think creatively, analyze complex situations, and design innovative and effective solutions resulting in a higher quality project.
